13 i. Adopt Resolution 23-050 Adjusting Delegation of Authority to the 14 Administrator to Approve Certain Regulatory Application

15 Administrator Jeffery reported Michael Welch drafted, per Board direction at its
16 previous meeting, a resolution that comprises all previously approved
17 resolutions delegating to the Administrator authority regarding regulatory
18 applications.
19

20 Mr. Welch said Resolution 23-050 takes all prior delegations of authority that
21 the managers have adopted and rescinds them and puts those delegations all in
22 this one resolution to provide a comprehensive statement regarding delegation
23 of authority as well as restrictions on that authority.

24 Mr. Welch highlighted that the administrator cannot deny the approval of a
25 permit and the Administrator only has the authority to approve or conditionally
26 approve a permit.

27 Mr. Welch clarified the Resolution states that if the land-disturbing activities
28 proposed or already conducted differ from the original proposed activities in a
29 manner material to the determination of compliance with the RPBCWD rules,
30 the administrator cannot approve the permit. He pointed out that the Resolution
31 also states the administrator cannot approve a permit if the administrator
32 determines that the application involves a technical, policy, or legal issue or
33 raises public comment that warrants review of the application by the board of
34 managers or if anyone requests consideration of the application by the board of
35 managers. Mr. Welch said he thinks it is very generous of the Board to include
36 this last provision, and it allows a permit that raises concern by an individual or
37 group to bring a permit in front of the Board, but it also provides a way for an
38 individual who is trying to be troublesome to delay the permit process because
39 the Board has put no standards in place regarding the provision. He asked if the
40 Board wants to consider putting some type of standard in place to the provision
41 such as including language that the request must be a good faith request.

42 Mr. Welch said he does not recommend the Board place the authority delegated
43 by this resolution into the Governance Manual because the authority does not
44 regulate the Board's conduct or how the Board conducts its business but rather
45 how the District operates its regulatory program. Mr. Welch said any time a
46 policy statement is put in two different places there is a potential for the two to

get out of synch and be in conflict with each other and also it would be that much extra work to make a change. He said, however, if the managers want to put the content of the resolution into the Governance Manual, staff will find a way to do so, but he recommends the Board note in its Governance Manual that there is delegated regulatory authority by resolution.

Mr. Welch suggested the administrator utilize the monthly staff report to keep a running document of the permit activities.

President Ziegler moved to approve Resolution 23-050 with the changes recommended by Counsel. Manager Koch said the meeting agenda lists this item as a discussion item, and he heard several substantial issues that the Board needs to discuss. Manager Koch moved to table this item to the Board’s next meeting. Manager Koch’s motion died due to lack of a second.

Manager Pedersen seconded President Ziegler’s motion.

Manager Koch moved to table this until the Board has received a copy of the Resolution with the language updated to reflect the revisions. President Ziegler seconded the motion.

Mr. Welch asked for direction from the Board regarding the provision “if anyone requests consideration of the application by the board of managers.” President Ziegler said his motion did not include any changes to that provision.

Upon a roll call vote, the motion to table this item fails 1-4 as follows:

<i>Manager</i>	<i>Action</i>
Crafton	No
Duevel	No
Koch	Yes
Pedersen	No
Ziegler	No
